## *CONCLUSIONS*

In the group meeting partners shared the experience in projects. Each partner prepared presentations about the school activities about topic of COM project, products for the WEB PAGE, local results (leaflets, posters etc.).

All participants prepared a handicraft – a representative one from each country. (it was a model of a statue, pot, a traditionally dressed dummy etc.) They described and explained why/how it is associated with each country. The second task was for participants to prepare a short presentation (5-8 min) – ppt, prezi, video clip etc – on **national holidays/celebrations/festivals etc** and illustrate why and how they are celebrated in our country/area. It was useful to share these and compare/contrast our culture.

All partners planned future project activities and details for the last meeting, final CONFERENCE in SLOVENIA, dates: 21-23 MAY, 2015.
